

Music Major Request for Additional Semester(s) of Music Scholarship

Money relinquished by graduating seniors provides funding for scholarships and grants for the next entering class. Consequently, the result of extending an award for a student who has exhausted their eligibility could result in a reduction of funding for a new student entering the university during that time period.

Therefore, all requests for extensions are subject to availability of fund after awards are made for new students, and after all aid has been renewed for eligible returning students.
