

COLLEGE *of*
FINE ARTS

Graduate Student Research and Creative Activity Support Fund

Graduate students (master's and doctoral) in the College of Fine Arts may apply for funding to assist with research and creative activity required for completion of their degree. Funds may also be awarded for projects that enhance the professional development of the student. The maximum award will be \$750 per student per year. These will be made on a first-come, first-served basis as long as funds are available.

Project Eligibility

Each project must also be sponsored by a TCU faculty member, who will guide the student through the project's completion.

Examples of some eligible uses of funds include:

- Purchase of necessary materials for original research projects or for the creation of original artworks
- Rental of spaces (concert, exhibition, etc.)
- Travel and fees associated with research or the presentation of research or creative activity at peer-reviewed or juried venues (e.g., invited exhibitions, peer-reviewed academic conferences, invited competitions)
- Professional development expenses (e.g. workshops, conferences, etc.)
- Equipment is eligible, though requests for equipment may be subject to additional review. Equipment requests over \$500 will remain the property of TCU upon the student's graduation.

Additional Criteria:

- funds **may not** be used to provide stipends or payment for people other than the applicant (musicians, actors, etc.)
- funds **may not** be applied retroactively to already completed projects
- grants **may** be combined with other internal and external funding sources, and we strongly encourage students to apply for all available funding
- All projects including human subjects (e.g., surveys, interviews) must adhere to university policies regarding Institutional Review Board (IRB) approval

Required Application Materials

1. Completed application form (found on the next page)

This includes applicant information, project title, a brief summary of the project, a line item budget, and appropriate signatures (can be signed electronically).

2. Project Narrative (up to two pages, double spaced)

This document should explain your project and how it relates to the completion of your degree or advances your professional development. If you are undertaking a creative project, please provide an artistic statement along with project goals. If you will be undertaking a research project, please provide a summary of the project and how these funds will contribute to your plans for completing it.

Please complete these materials and return to the Associate Dean for Research and Faculty Development (Dr. Lori Diel, l.diel@tcu.edu).

Evaluation Procedures

All submissions will be evaluated by College of Fine Arts faculty members. Proposals will be evaluated on the merits and potential impact of the proposed project, as well as on the quality of the proposal itself.

Follow-Up Document and Reimbursement Form

For those applicants whose proposals are funded, money will come as a reimbursement of your expenses, not as a cash advance award. To be reimbursed, you will fill out a form provided through the [Financial Services Office](#) and submitted, along with original receipts, to Carrie Franklin in the Dean's Office. The College also requires a report of 500–1000 words describing the results of the project and how the funds were allocated. This document should be submitted by the end of the semester in which the grant was used.

All questions regarding Graduate Research and Creative Activity support grants may be directed to Dr. Lori Diel (l.diel@tcu.edu).

Support made possible through the Buie Memorial Fund for Fine Arts.
